THE COURSE

START LINE

Waves of approximately 500 runners will leave the starting line area. Waves will leave every 4-6 minutes until all runners have been released.

FINISH LINE PARTY

After crossing the finish line, please grab a bottle of water and clear the area so you do not block other runners coming through the finish line. At the finish line party we will have color throws taking place every 10-20 minutes. This is where you will want to use your color pack! Extra color packs will be available for sale on a first-come, first-serve basis.

COLOR STATIONS

There will be multiple color stations throughout the course. Please Do not stop in the color stations. This will prevent a bottleneck for runners behind you. As with any substance, you'll want to keep it out of your eyes and mouth. Many runners choose to wear glasses to protect their eyes and a bandana to keep the color out of their mouths. We sell snazzy Color Vibe bandanas that are great options! The color we use is made in the USA and 100% safe and biodegradable.

COURSE ROUTE

ADDITIONAL INFO

WALKING / RUNNING / SKIPPING / DANCING

We have a strict No Dancing policy. NOT. What fun would that be? That's why we encourage dancing and skipping to your heart's delight, especially at the finish line party. If you decide to walk, please be respectful of those behind you and stay to the right. This will allow runners to pass easily on the left.

THE CLEANUP

Wear clothes you don't mind getting color on. Our color washes out well, but we don't guarantee that it will all come out.

For individuals with light colored hair, we recommend using a leave-in conditioner or a light oil (coconut or olive) before the event. Some of the colors can take a few days to fully wash out of your hair, particularly if you have bleached or blonde hair.

We recommend bringing something to protect your car for the ride home. A towel or garbage bag to sit on will do the trick and will prevent your car from getting as colorful as you will be.

The sooner you clean up, the easier the color comes off. But before jumping in the shower, dust off as much of the dry powder as possible. You can try adding a little baking soda to your body wash for those areas where the color doesn't come off as easily.
